INSTALLATION INSTRUCTIONS 62149 SIDE BAR

3. Place (1) front mounting bracket attach to the bolt of "T" plate previosuly placed using: (1) 3/8" flat and lock washers and 3/8" hex nut. Secure to the nuts of "T" plate using (2) 3/8 x 1 1/4" hex head bolt, (2) 3/8" flat and lock washers. See Picture 2. Leave loose. Repeat the procedure to install middle and rear mounting brackets.

4. To install auxiliary front mounting bracket, locate existing hole underside of the body then place (1) 3/8" "T" bolt with a vynil gasket. Place auxiliary front mounting bracket and secure using (1) 3/8" flat and lock washers and (1) 3/8" hex nut. **See picture 3.** Leave loose.

PICTURE 2

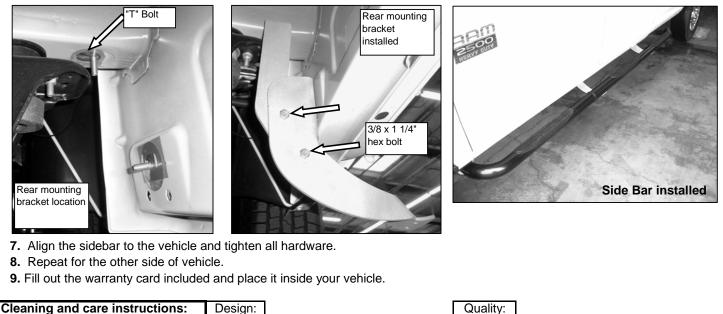

5. To install auxiliary rear mounting bracket, locate existing square hole in the underside of the body See Picture 4. Introduce (1) 3/8" "T" bolt with a vynil gasket then place rear auxiliary mounting bracket and secure to the bolt previously placed using (1) 3/8" flat and lock washers and 3/8" hex nut. Secure the other end to the rear mounting bracket using (2) 3/8 x 1 1/4" hex head bolt, (2) 3/8" flat and lock washers and (2) 3/8" hex nut. Leave loose. Picture 5. **NOTE: Only rear mounting bracket has auxiliary bracket.**

6. Place side bar to the front mounting brackets and secure using (1) $1/2 \times 2"$ hex head bolt, and (1) 1/2" flat and lock washers. **NOTE:** Using same 1/2" bolt secure front mounting bracket and auxiliary front mounting bracket to side bar. Leave loose. Use (2) $3/8 \times 1 \ 1/4"$ and 3/8" flat and lock washers to secure middle and rear mounting bracket. Leave loose.

PICTURE 5

Keep your product clean. Do not use abrasive cleaners or polish. We recommend only non-abrasive automotive wax such as pure carnauba to avoid scratches or rust.

PICTURE 3
